

Natural Gas Demand Response Program

Take control of your energy use.

Cut costs. Save time. Earn incentives.

Our Natural Gas Demand Response (DR) Program incentivizes you for curtailing your natural gas use during energy event days. Through your voluntary participation in the program, you are incentivized for reducing your natural gas consumption. There are never any performance penalties, and there is zero cost to participate.

This zero-cost program is flexible, easy to use, and provides the ability to opt out at any time, so you're always in control.

BENEFITS OF THE NATURAL GAS DEMAND RESPONSE PROGRAM:

- Zero cost to participate.
- Our DR Team handles the entire process, from application to performance verification.
- Receive performance incentives for natural gas curtailment.
- No penalties for lack of or reduced performance during events.

Learn how to participate and what you could potentially earn.
